SKILLS

Computer skills:

I am skilled with many software applications that are necessary for design. Below is a list of the applications I am familiar with and my skill level for each on a scale to 10.

Photoshop | 6.5: Strongest at editing and retouching photos.

Illustrator | 8.5: Very strong with the pen and gradient tools.

Indesign | 7: Familiar with most functions, strong with creating layouts.

Flash | 7.5: Know the basics of coding, strongest in organization.

Dreamweaver | 8: Knowledgeable in CSS and HTML.

Other software applications I am knowledgeable in include: Microsoft office 2007, Final Cut Pro, iWork and iLife 2008 and 2009. I am also more willing to learn any other software applications needed for the job on my own time.

Personal Qualities:

Enthusiastic and passionate about art and photography.
On task and focused when it comes to any job.
Able to work under pressure and time restraints.

FREELANCE WORK

I do a lot of freelance work in photography and Design, below is a list of what I feel I am strongest in. Note that these are in no particular order:

Portrait Photography: Senior, Individual, Family, and Couples.

Stock Photography: Landscape and Nature

Product Photography

Logo Design

Web Design

My Mission

My work tells many stories and always has an original look to it. I achieve this originality by including not only my style but also that of the client. I understand that each person has their own thoughts and ideas, and feel that it is necessary to include these thoughts and ideas into my work. I generally try to create a clean and easy to understand design, however, I am not afraid to overstep boundaries if needed.
